

OffSec's Global Learning Partner Program

OffSec, the world's most trusted provider of continuous cybersecurity workforce development and learning, partners with industry recognized training institutions to provide live, instructor-led classes to learners in a classroom or online setting.

Learning Partners are provided with instructor training and resources, including an instructor onboarding process, knowledge transfer of OffSec's best practices, and access to OffSec instructor materials. In addition, support is provided for learner registration, reporting and curriculum development. Through OffSec's Partner Program and Partner Portal, partners are provided with the benefits, support and resources they need to succeed.

Learner partner benefits can include:

Instructor Authorization & Live-Training Resources

- Special instructor & learner products
- Instructor training & authorization
